

Adsorbent АОК-63-32

Carbon-alumina adsorbent for organic compounds removal from industrial gas emissions and solvent vapor recovery. Efficient for VOC removal from low concentration gas streams.

Specification:

| № | Parameter | Grade A | Grade B |
|----|---------------------------------|---------------|-----------|
| 1. | Shape | Cylinder | Ring |
| 2. | Color | Black or gray | |
| 3. | Size, mm | | |
| | - Length | 4-15 | 6-10 |
| | - Outer diameter | 4.5-5.5 | 7.5-8.5 |
| | - Wall thickness | - | 2-3 |
| 4. | Bulk density, g/cm ³ | 0.55-0.85 | 0.45-0.75 |
| 5. | Surface area, m ² /g | ≥450 | ≥400 |
| 6. | Crush strength, | | |
| | - MPa | ≥ 3 | |
| | - N/mm | | ≥ 5 |
